TWO CENTS

FRENCH BEAT BOERS

Fled In Disorder After Being Surprised.

LEFT COLESBURG TO BRITISH.

A Dispatch Said Boers Loss Must Have Been Heavy—British Loss Slight. Were Harassed on Retreat—British Rescued Near Dordrecht.

RENSBURG, Cape Colony, Jan. 2.—French completely defeated the Boers and occupied Colesburg.

The general continued to keep the Boers on the move and pressed them closely Saturday and Sunday, giving them no time to make a prolonged stand, and when day broke he was within striking distance of the enemy. Sunday night all the cavalry, artillery and infantry, the latter riding in wagons to increase the general mobility, started upon a night march with the object of turning the Boers' right. The flank operations were successful. The infantry and field batteries immediately made a feint attack upon the Boer front and, while this was proceeding, the cavalry and light artillery got completely around the enemy's right flank, as arranged. The Boers were utterly surprised, and, finding their retreat threatened, fled in disorder to the eastward, leaving Colesburg in General French's hands.

LONDON, Jan. 2.—At Modder River, General Buller's scouts have discovered a Boer camp established in the vicinity of Springfield, southwest of Colenso, by a Free State commando. A similar movement was made at Modder river. A large force of Boers, it was reported, formed a new laager about 15 miles down the stream, at Kameelhoek.

Hellograph reports from Ladysmith showed that all was well on Dec. 31. The bombardment was being continued, but its intensity had relaxed. An official dispatch from Ladysmith confirms the report, cabled yesterday, that several officers of the Devonsire regiment were severely wounded by the explosion of a Boer shell in the mess tent.

The Daily Mail had the following dispatch, dated Jan. 1, from Rensburg:

"Yesterday afternoon a big force of cavalry and infantry with ten guns, under the personal command of General French, moving by detour, occupied some hills three miles from Colesburg, where the Boers were in strength, confident in the natural aid afforded them by the hills around.

"The enemy's position extended six miles around the entire village. At daybreak our artillery opened the battle. The Boers were taken by surprise but replied vigorously.

"An artillery duel was maintained for two hours. Then a Boer Hotchkiss collapsed and was abandoned. We captured it. A Boer big gun was silenced, but this and the other Boer guns were withdrawn to the northward, whither we were harassing the Boer retreat by a damaging shell fire.

"Colesburg is in our hands and the few remaining loyalists are jubilant. We have captured many wagons and a considerable quantity of stores.

"Our losses were quite slight, but the Boers must have suffered heavily. They may stop at Achterhang or cross the river altogether at Norval's pont, where the bridge is still intact."

CAPE TOWN, Jan. 2.—Ugly rumors were in circulation of a Dutch rising, with the object of seizing Cape Town and the docks and capturing the governor of Cape Colony, Sir Alfred Milner. The center of the movement is said to be Pearl, a village about 30 miles from Cape Town, where a meeting of the Afrikaner Bund was held yesterday. A similar meeting was held at Richmond on Dec. 28 and it is reported that the members of the bund in these two towns were acting in concert.

The members of the bund at Wellington and the Dutch in Clan William district were said to be armed with Mausers and to be anxious to use them in behalf of the Boers.

Although the stories of a rising were discredited, the police and military were taking ample precautions.

LONDON, Jan. 2.—Near Dordrecht, Captain Montmorency's sortie with a patrol of 120 men of the Twenty first Lancers and his retreat Dec. 30 were followed up the next day by a successful British engagement.

Under Captain Goldsworthy a force of 110 men, with four guns, accompanied by Captain Montmorency's scouts, saluted Dordrecht during the morning of Dec. 31 to relieve Lieutenant Turner and 27 men left over night at

GENERAL FRENCH.

Labschagn's Nek. The Boers were driven back and Lieutenant Turner's party was rescued. Eight Boers and 13 horses are known to have been killed.

The Times published a dispatch from Sterkstroom, dated Dec. 31, which said in part:

"Captain Montmorency's scouts were out of owing to their refusal to leave a wounded officer, Lieutenant Warren, of Brabant's horse. These men, under Lieutenant's Milford and Turner, of the Frontier mounted rifles, defended themselves most gallantly against the repeated attacks of some 800 Boers. The enemy resorted to sniping during the night but were repulsed with loss.

"At 5:15 this morning Captain Goldsworthy, with the Cape Mounted Rifles, arrived and the enemy immediately fled at the hills. Turner's party, whose horses had nearly all been killed, were rescued. They displayed splendid pluck, and the brilliant manner in which Captain Goldsworthy effected their relief on his own responsibility is deserving of the highest praise. Our loss was two men wounded. The Boers lost about 30 men, including eight men killed."

A dispatch from the Modder river said:

"Dec. 31 the naval guns planted a few excellent shells without reply. The enemy's position on the left is apparently considerably weakened."

Count Gleichen of the Grenadier guards and a distant relative of Queen Victoria, who was wounded, left Cape Town for the front.

Alleged Boer spies, it was discovered, enlisted in the yeomanry. A representative of Lord Chesham, who is in command of the yeoman forces, said that the officials of this arm of the service were being pestered by agents of Dr. Leyds, the European plenipotentiary of the South African government. He added that two of them were actually accepted, but that they were afterwards discovered. He declared that the same thing occurred in Thornycroft's horse, seven spies being discovered in that body. He said, continuing:

"We have given word to all our command officers to keep a sharp lookout for traitors."

No steps had been taken thus far to punish the alleged spies.

Dominated Democratic Caucuses at Frankfort.

WILL BE SPEAKER PRO TEM.

In the Senate Caucus Senator Karold Caused a Sensation—Said He Had Been Offered a Bribe to Stay Away from Caucus Meeting.

FRANKFORT, Ky., Jan. 2.—All doubt as to the ability of the Goebel Democrats to organize both houses of the legislature was dispelled by the attendance in the Democratic caucus. Senator Goebel was nominated for president pro tem of the senate and the entire Goebel slate went through.

In the house caucus all of the 58 Democrats answered to roll call and participated. In the senate four Democrats remained out. They were Senators Alexander, Hays, Gillette and Roberts. Senator Hill was sick and absent but is not classed with the dissenters.

In the senate caucus Senator Harold created a sensation by making an alleged expose of the anti Goebel leaders, declaring that he had been approached by J. H. Whalen of Louisville and paid \$4,500 to remain out of the caucus. The money, he said, had been placed in a

WHITE HOUSE RECEPTION.

Mrs. McKinley Able to Be In Line With the President—Miles Given Precedence Over Dewey.

WASHINGTON, Jan. 2.—At the White House reception, on New Year's day, about 3,354 guests passed down the line. Mrs. McKinley was present, despite her feeble health. She remained in the blue parlor only through the strictly official section of the program, retiring then, as had been previously arranged. With the flush of excitement on her usually pale face she looked bright and happy as she led the cabinet procession down the corridor with the president to the blue room.

The official procession moved down the stairs and through to the blue parlor, where the receiving party was to be met. Mrs. McKinley bowed

and smiled to the little crowd of favored spectators who filled the end of the corridor to witness this opening act of the day's ceremonies. As she turned into the blue room she kissed the lips of her white gloved fingers to some of the children who waved their hands to her from a point of vantage near the door.

The troublesome question of precedence between the army and navy was settled in favor of the former, General Miles leading the military contingent, with Adjutant General Corbin at his left side. After the army had passed in review Admiral Dewey, with the venerable Admiral Melville on his arm, led the line. Mrs. Dewey was with the receiving party and was escorted in on the arm of Secretary Long.

The diplomatic corps, which headed the list of guests, was always the show feature of the reception. Lord Pauncefoot, the British ambassador and dean of the corps, led the way. The display of uniforms was brilliant, Turkish fez, gilded orders of the continental powers, the fur-trimmed tunics and high, polished boots of the Russians, the queer, sage green, gold encrusted uniforms of the Japanese and the ermine-trimmed silken robes of the Koreans and Chinese all combined to form a picture of unusual brilliancy.

Following these the American officials, judges of the Supreme court, senators and representatives, department chief and the like, made a longer if less striking procession. The reception to the general public concluded the function.

However, Mr. Rockefeller wired that he will extend the limit three months, and in that time Dr. Harper thinks he is reasonably sure of getting the rest of the money, as he has several large donations in prospect.

ANOTHER NEW SCHEME

To Place Street Commissioner on a Good Salary.

DO AWAY WITH INSPECTOR

And Let the Commissioner Have Entire Control of the Streets—Some Needed Changes Pointed Out by a Party Who Has Given the Matter Some Thought.

The condition of some of the city sidewalks is always a subject for discussion and a prominent resident in speaking of the matter yesterday said:

"I think if council would pass an ordinance before the spring election, placing the street commissioner on a salary of at least \$100 a month, and give him entire control of the streets, the sidewalks would be kept in a great deal better condition than they now are. It was never intended that the street commissioner should superintend every shovelfull of dirt that is taken off the city streets and the work he now does could go to a subordinate officer. He now draws a salary of 50 per month and the inspector gets \$60, making a total of \$110. If the ordinance was passed there would be no necessity for an inspector and the city would save \$120 per year.

"I think I can safely say there are at least 50 places within 100 yards of the Diamond that if an accident were to occur the city would be liable for damages and there would be no escape. If the street commissioner was given the proper authority and the right wages such a state of affairs as now exist could be easily remedied.

"Another thing that is badly needed to place the city on the safe side is new gratings at the crossings instead of the frail ones that are now in use. The court in a recent decision in a damage case against this city called attention to the gratings and said they were too frail, were not close enough together and if an accident should occur on account of them the city would certainly be liable. He spoke of a case on Second street which came under his personal knowledge in which a wheelman received a hard fall because his front wheel went between the gratings. This, he said, was only one of the many things for which the city could be held.

"There is another matter which I wish to call your attention and that is the fact that President Peach recently submitted a list of sidewalks that he considered dangerous but they have not yet been repaired. Suppose some person should get hurt by reason of these defective sidewalks and sue for damages what defense would the city have? I sincerely hope that council will take some step in this matter before long."

Sunday morning Ira Chamberlain, who resides in Dixonville, thought of the cold weather and then of his chickens. He went out to the building where they were kept and built a fire in an old stove. The chickens cackled at this and the building was becoming very warm. Alas, it was in flames, and every chicken in the building was burned to death. Chamberlain went to the East End fire station and reported the matter, but that part of the hill where he lives is outside the city limits. He places his loss at \$75.

WINTER CAMPMEETING.

NOVEL SERIES OF MEETINGS AT M. P. CHURCH

Sunday, and to be Continued Throughout the Week. A Great Success.

The winter encampment at the Methodist Protestant church is well under way and the interest, attendance and prospect are already beyond the expectations of its supporters. This is a new thing in church activities in this city and is proving itself attractive and pleasing indeed. Stretched around three sides of the lecture room are yard-wide muslin stripes with appropriate scripture passages which make an inspiring effect. There is a chorus of 50 voices, led by Mrs. Risinger, chosen from the best singers, which is certainly one of the strongest features of the camp. Enlarged congregations were in attendance throughout the day Sunday and the all-night service Sunday night was indeed a pentecostal scene. The meeting consisted of responsive scripture readings, testimonies, prayer, gospel singing, earnest consecrations and personal examination. Last night at the old people's service cabs were run to convey the infirm to and from the church. The cold weather has no effect whatever upon the meetings.

At the meetings held last night and also Sunday both churches were well filled, and much interest is being manifested throughout that end of town about the outcome.

MOVING SHOVELS.

EXTENSION WILL BE FINISHED SOON.

Shortage of Coal--School Started--Among the Sick--News of Grant District.

At last Contractor McNally is preparing to ship his machinery to a point near Uniontown. Yesterday he commenced to tear down the blacksmith shop near Newell's ferry and load the material on cars, and late in the afternoon he commenced to take one of the steam shovels apart, preparatory to loading it on the cars. The second shovel, which has been working at the narrows, will be loaded for shipment by Thursday. The shovel that has been working on the Gardner farm will be rented to the contractor who received the contract for constructing the additional mile of road to the Southside Land company's addition. As stated in this paper a few weeks ago, the extension will be finished by the middle of the month.

They Want the Gas.

The residents of Chester are hoping that the gas companies will lay pipes in that place soon and sell gas. The price of coal is very high, and very often it is impossible to get it. Yesterday afternoon a number of families were without coal, and in one instance one woman took her children and went to the home of a neighbor to keep warm until her husband could get coal.

WINTER CAMPMEETING.

NOVEL SERIES OF MEETINGS AT M. P. CHURCH

Sunday, and to be Continued Throughout the Week. A Great Success.

The winter encampment at the Methodist Protestant church is well under way and the interest, attendance and prospect are already beyond the expectations of its supporters. This is a new thing in church activities in this city and is proving itself attractive and pleasing indeed. Stretched around three sides of the lecture room are yard-wide muslin stripes with appropriate scripture passages which make an inspiring effect. There is a chorus of 50 voices, led by Mrs. Risinger, chosen from the best singers, which is certainly one of the strongest features of the camp. Enlarged congregations were in attendance throughout the day Sunday and the all-night service Sunday night was indeed a pentecostal scene. The meeting consisted of responsive scripture readings, testimonies, prayer, gospel singing, earnest consecrations and personal examination. Last night at the old people's service cabs were run to convey the infirm to and from the church. The cold weather has no effect whatever upon the meetings.

MAKE NO MISTAKES.

When William McKinley was re-elected governor of Ohio in 1893 the opinion was common that "if he makes no mistakes between now and 1896 he's sure to be our next president." Well, he made no mistakes and he became president. And he has made none since he became president. In fact, his record as a conservative and capable man has given a majority of his countrymen the most implicit confidence in him. This belief is going to re-elect him by a record-breaking majority next fall.

NORMAL SCHOOLS.

Superintendent Rayman Interested in the Bill Before the Legislature.

Superintendent R. E. Rayman is much interested in the movement to have the legislature enact a law authorizing the construction of five state normal schools, one to be in Columbus in connection with the State university and the other four to be located in each of the four corners of the state in cities offering the best inducements. Professor Rayman says while he does not think the normal schools would prove a cure-all, still almost every other state has them and they have proved very beneficial. An effort is also being made to amend the truancy law. At present it is difficult to interpret and no one knows exactly what it means.

REJOICING AT LISBON.

SEWER PIPE PLANT DEAL HAS BEEN CLOSED UP.

Pittsburg and Eastern Capitalists Back of the Purchase.

LISBON, Jan. 2.—[Special]—The deal for the sewer pipe works, east of Lisbon, is closed. The deed, which is three feet long, was delivered by Sheriff Gill to R. W. Allison as trustee today. The consideration was \$105,000. It required \$105 in revenue stamps for the deed. Lisbon has raised the bonus required, a little less than \$10,000 and both the works will be started within six months.

R. W. Allison, is president of the Empire Fireproofing company. The purchase includes the fireclay plants and coal and clay mines formerly owned by the United States Fireclay company and the Ohio Sewer Pipe company. These works are located on the Pennsylvania and Erie railroads and the sidetracks and terminals are included in the purchase.

Associated with Mr. Allison in the purchase is Henry M. Keasbey, president of the Central Fireproofing company, of New York, and also president of the Raritan Hollow and Porous Brick company, of Keasbey, N. J.

Messrs. Allison and Keasbey recently purchased the terra cotta works as Osaburg, near Canton, O., and it is their intention to consolidate these with other plants which they are negotiating for. For this purpose a company is being organized under the laws of New Jersey, which will have its headquarters in Pittsburg.

ANOTHER DIVIDEND

Of Ten Per Cent Will be Given Lisbon First National Creditors Soon.

LISBON, Jan. 1.—[Special]—It is just 14 months since the disappearance of M. J. Child and the closing of the First National bank. At that time depositors thought they would realize almost nothing on their deposits, but through the efforts of I. B. Cameron, receiver, all received a 40 per cent dividend several months ago, and enough money is again in the hands of the comptroller of currency at Washington, to declare an additional dividend of 10 per cent.

The affairs of the bank will not be closed up for some time yet, and it is expected that much more money will be realized for creditors.

THE SURPRISE CLOTHING HOUSE.

THREE CARD MONTE.

CAREER OF THE MAN WHO INVENTED THE SMOOTH TRICK.

He Imposed on Many Men of High Standing in the Nation, Made a Barrel of Money With His Swindling Game and Died a Pauper.

Lew Houck was the inventor of the notorious three card monte trick and about the cleverest card sharp in the world. Houck was well known in Kansas City, where he operated on and off for 20 years, making the city a sort of way station on his trips east and west.

The last time Houck was here he had just returned from a European trip. He produced papers and letters to show that while he was in London he was feted and dined by some of the upper crust of English society. He had passed there as a wealthy and traveled American. He had letters, too, from Secretary Olney, Secretary Carlisle and other leaders of the American political world which recommended him in the highest terms not only to the American representatives abroad, but to any friends of the writers who might meet him. And these letters were genuine. Their authenticity could not be doubted. Houck had a way of getting entrance into the exclusive clubs of Washington, Philadelphia, New York and other cities, and in his role of "gentleman of leisure" he had so imposed on men of high standing in the nation that they thought him all he represented himself to be and gave him the letters of introduction that helped him to fleece the aristocracy of Europe.

Houck invented the three card monte game before he became of age. This is a trick with cards that has fleeced more people out of money than any other game ever practiced. The trick is played with three aces, two black ones and one red. It is always played with a confederate to help, or "stall," for the game. The operator takes the three cards between his fingers, showing them to the victim, and then shuffles them about and drops them face down upon the table, offering to bet any amount of money that no one can pick out the red ace.

At this point the operator turns his head a moment to spit or to speak to some one in the crowd behind him, and in that moment the confederate picks up the red ace card, shows it to the victim, "crimps" the corner of the card and slyly lays it down again, apparently all unseen by the operator. The operator again shuffles the three cards and throws them upon the table, face down. There lies the card with its crimped corner. The victim supposes, of course, that it is the red ace and bets and picks it up to find that it is a black one, and he has lost his money.

The operator, when he picked up and shuffled the cards carelessly the second time, with a deft movement of his fingers removed the crimp in the red ace card and put a similar crimp in a black ace card. That was all there was to the trick. Houck worked it for years in hotels, on billiard tables, at fairs and circuses and on railroad trains and steamboats. He taught the trick to Canada Bill, a noted gambler, and the two worked together over all the country. They paid thousands upon thousands of dollars to railroad men in the old days for the privilege of working the game on trains, and they made money.

Later, when nearly every state in the Union passed laws aimed directly against the working of the three card monte game, it became unprofitable and was given up by Houck. But about that time an ingenious English cockney invented the "three shell" game, which was even more productive than three card monte, and Houck took it up. The three shell game is a modern improvement on the ancient thimble-rigging game that was worked at English fairs for many years. The old way was for the operator to crook his knee over the head of a cane that stood upright on the ground and move a small seed around between three thimbles on top of his leg, offering to bet that no one could pick the thimble under which the seed was hidden.

The lesson taught by the lives and deaths of Houck and Canada Bill and all the rest of their kind is that it never pays to be dishonest or to live by one's wits. These men may get great sums of money by sharp practices in the course of a lifetime, but they all die poor, and most of them die in prison. Canada Bill, who worked with Houck

on trains out of Kansas City and made probably \$1,000,000 in his life, died a pauper in the almshouse in Lebanon, Pa., and is buried in a pauper's grave. Houck dropped dead on the street in Durango, Mexico, and his widow in Ohio had to solicit aid to get his body home to give it decent burial.—Kansas City Star.

CUBANS' NEW YEAR.

A Parade in Havana About Midnight. Cheered, Among Others, President McKinley.

HAVANA, Jan. 2.—The New Year was ushered in with a torchlight procession which, forming just before midnight and preceded by a band, left the lower Prado and made the circuit of the principal streets. About the only tune played was the Cuban national hymn. The strains of the popular hymn drew people to the windows and doorways, and the procession was greeted with wild enthusiasm. Small boys kept up a firecracker fusillade along the line of march.

All the prominent Cuban Generals were cheered, although there was no doubt that the vivas were chiefly for "Cuba libre." President McKinley and Governor Wood came in for a liberal share of popular applause. The procession have returned to the Prado, and the band having once again played the Cuban National hymn, some Americans, who were present, called for the "Star Spangled Banner." The band immediately complied and the crowd cheered lustily.

FENIANS PLAN INVASION.

Storing Dynamite, Ammunition, Food, Etc., Along the Canadian Border In New England.

BURLINGTON, Vt., Jan. 2.—It is reported that the Fenians are engaged in storing large quantities of dynamite, lyddite ammunition and supplies in a few selected repositories in remote districts in Vermont and Maine near the Canadian boundary line. The information comes from persons who claim to have knowledge of the purchase of some of the supplies and others who learned of their transportation by railroad disguised as groceries.

Dynamite and other explosives have been secured in large quantities and stored underground on the Vermont border, while quantities of canned meats have been hidden in some large barns of sympathizing farmers on the Maine line near New Hampshire. It is said that an efficient ambulance corps is being organized under the supervision of a few loyal Irish women and surgeons who were in the Red Cross work in Cuba.

A schedule is being arranged of farmers of the border states who can furnish wagons and horses and oxen for transportation purposes, as this is regarded as a most important detail. A careful study is being made of the small railroad branches in Northern New England and places are being located where the road could be captured by a very small force.

FUGITIVE AND ABSCONDER.

The County Treasurer at Lancaster, Pa., Missing and Found to Be Short Over \$65,000.

LANCASTER, Pa., Jan. 2.—The continued absence of County Treasurer E. H. Hershey and the ugly stories concerning his accounts which have been afloat for a week past prepared the public for the formal announcement that he is a defaulter and absconder to the amount of \$65,000. Speculation and poker are believed to have practically eaten up the entire amount of the delinquency.

There is on deposit in the banks of this city \$14,840, while the books call for \$120,840. There is due the state for tax on money at interest for 1899 the sum of \$84,000, of which three-fourths comes back to this county, hence the net sum owing the state is \$21,000. Hershey is believed to have gone to Canada.

The office was turned over to the new treasurer when the shortage was officially announced to be \$65,012.41. Two of the bondsmen are brothers of Hershey, and one composed with the treasurer the firm of Amos Hessney & Bro. of Gordonville, against which execution for \$39,000 was issued last week. These judgments were held by relatives and were confessed but a few days previous.

They will likely be contested and it was expected will be stood aside. The other bondsmen represented the different banks which held the county deposits, and it was expected the shortage will be made good without litigation.

HOW IT'S BACKED.

Undoubted Reliability Is Expressed In East Liverpool Indorsement.

What you want is home indorsement. The backing of people you know. East Liverpool proof for East Liverpool people.

That's what follows here. Surely no better backing can be had than the following from

Mrs. Edmund Parton, of 233 Ravine street, says: "I had backache, head ache and other symptoms of the complaint for two years. When the last attack came on I went to the W & W. pharmacy and got a box of Doan's kidney pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Parton & Jackson, was seized with a severe attack of kidney complaint. Some years ago he contracted a fever which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's kidney pills emphasizing the facts that he had been a sufferer with kidney disease, confined to his bed; his physician informed him that perhaps he would be able to get him up in two or three weeks that he used Doan's kidney pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's kidney pills."

Brighter For Pittsburg.

PITTSBURG, Jan. 2.—Superintendent and General Agent Robert Pitcairn of the Pennsylvania railroad authorized the statement that while the allotment of \$13,000,000 for improvements had not been definitely decided upon, that the setting aside of the vast sum would make the prospect for a new Union station much brighter.

THE EVENING NEWS REVIEW.

15TH YEAR. NO. 173.

EAST LIVERPOOL, O., TUESDAY, JAN. 2, 1900.

TWO CENTS

FRENCH BEAT BOERS

Fled In Disorder After Being Surprised.

LEFT COLESBURG TO BRITISH.

A Dispatch Said Boers Loss Must Have Been Heavy—British Loss Slight. Were Harassed on Retreat—British Rescued Near Dordrecht.

RENSBURG, Cape Colony, Jan. 2.—French completely defeated the Boers and occupied Colesburg.

The general continued to keep the Boers on the move and pressed them closely Saturday and Sunday, giving them no time to make a prolonged stand, and when day broke he was within striking distance of the enemy. Sunday night all the cavalry, artillery and infantry, the latter riding in wagons to increase the general mobility, started upon a night march with the object of turning the Boers' right. The flank operations were successful. The infantry and field batteries immediately made a feint attack upon the Boer front and, while this was proceeding, the cavalry and light artillery got completely around the enemy's right flank, as arranged. The Boers were utterly surprised, and, finding their retreat threatened, fled in disorder to the eastward, leaving Colesburg in General French's hands.

LONDON, Jan. 2.—At Modder River, General Buller's scouts have discovered a Boer camp established in the vicinity of Springfield, southwest of Colenso, by a Free State commando. A similar movement was made at Modder river. A large force of Boers, it was reported, formed a new laager about 15 miles down the stream, at Kameelhoeck.

Hellograph reports from Ladysmith showed that all was well on Dec. 31. The bombardment was being continued, but its intensity had relaxed. An official dispatch from Ladysmith confirms the report, cabled yesterday, that several officers of the Devonshire regiment were severely wounded by the explosion of a Boer shell in the mess tent.

The Daily Mail had the following dispatch, dated Jan. 1, from Rensburg:

"Yesterday afternoon a big force of cavalry and infantry with ten guns, under the personal command of General French, moving by detour, occupied some hills three miles from Colesburg, where the Boers were in strength, confident in the natural aid afforded them by the hills around."

"The enemy's position extended six miles around the entire village. At daybreak our artillery opened the battle. The Boers were taken by surprise but replied vigorously."

"An artillery duel was maintained for two hours. Then a Boer Hotchkiss collapsed and was abandoned. We captured it. A Boer big gun was silenced, but this and the other Boer guns were withdrawn to the northward, whither we were harassing the Boer retreat by a damaging shell fire."

"Colesburg is in our hands and the few remaining loyalists are jubilant. We have captured many wagons and a considerable quantity of stores."

"Our losses were quite slight, but the Boers must have suffered heavily. They may stop at Acasterang or cross the river altogether at Norval's pont, where the bridge is still intact."

CAPE TOWN, Jan. 2.—Ugly rumors were in circulation of a Dutch rising, with the object of seizing Cape Town and the docks and capturing the governor of Cape Colony, Sir Alfred Milner. The center of the movement is said to be Pearl, a village about 30 miles from Cape Town, where a meeting of the Afrikaner Bund was held yesterday. A similar meeting was held at Richmond on Dec. 28 and it is reported that the members of the bund in these two towns were acting in concert.

The members of the bund at Wellington and the Dutch in Clan William district were said to be armed with Mausers and to be anxious to use them in behalf of the Boers.

Although the stories of a rising were discredited, the police and military were taking ample precautions.

LONDON, Jan. 2.—Near Dordrecht, Captain Montmorency's sortie with a patrol of 120 men of the Twenty first Lancers and his retreat Dec. 30 were followed up the next day by a successful British engagement.

Under Captain Goldworthy a force of 110 men, with four guns, accompanied by Captain Montmorency's scouts, saluted Dordrecht during the morn-

ing of Dec. 31 to relieve Lieutenant Turner and 27 men left over night at

GENERAL FRENCH.

Labuschagne's Nk. The Boers were driven back and Lieutenant Turner's party was rescued. Eight Boers and 13 horses are known to have been killed.

The Times published a dispatch from Sterkstroom, dated Dec. 31, which said in part:

"Captain Montmorency's scouts were out of owing to their refusal to leave a wounded officer, Lieutenant Warren, of Brabant's horse. These men, under Lieutenant's Milford and Turner, of the Frontier mounted rifles, defended themselves most gallantly against the repeated attacks of some 800 Boers. The enemy resorted to sniping during the night but were repulsed with loss."

"At 5:15 this morning Captain Goldworthy, with the Cape Mounted Rifles, arrived and the enemy immediately fled at the hills. Turner's party, whose horses had nearly all been killed, were rescued. They displayed splendid pluck, and the brilliant manner in which Captain Goldworthy effected their relief on his own responsibility is deserving of the highest praise. Our loss was two men wounded. The Boers lost about 30 men, including eight men killed."

A dispatch from the Modder river said:

"Dec. 31 the nival guns planted a few excellent shells without reply. The enemy's position on the left is apparently considerably weakened."

Count Gleichen of the Grenadier guards and a distant relative of Queen Victoria, who was wounded, left Cape Town for the front.

Alleged Boer spies, it was discovered, enlisted in the yeomanry. A representative of Lord Chesham, who is in command of the yeoman forces, said that the officials of this arm of the service were being pestered by agents of Dr. Leyds, the European plenipotentiary of the South African government. He added that two of them were actually accepted, but that they were afterwards discovered. He declared that the same thing occurred in Thornycroft's horse, seven spies being discovered in that body. He said, continuing:

"We have given word to all our command officers to keep a sharp lookout for traitors."

No steps had been taken thus far to punish the alleged spies.

GOEBEL IN CONTROL

Dominated Democratic Caucuses at Frankfort.

WILL BE SPEAKER PRO TEM.

In the Senate Caucus Senator Harold Caused a Sensation—Said He Had Been Offered a Bribe to Stay Away From Caucus Meeting.

FRANKFORT, Ky., Jan. 2.—All doubt as to the ability of the Goebel Democrats to organize both houses of the legislature was dispelled by the attendance in the Democratic caucus. Senator Goebel was nominated for president pro tem of the senate and the entire Goebel slate went through.

In the house caucus all of the 58 Democrats answered to roll call and participated. In the senate four Democrats remained out. They were Senators Alexander, Hays, Gillespie and Roberts. Senator Hill was sick and absent but is not classed with the dissenters.

In the senate caucus Senator Harold created a sensation by making an alleged expose of the anti Goebel leaders, declaring that he had been approached by J. H. Whalen of Louisville and paid \$4,500 to remain out of the caucus. The money, he said, had been placed in a

WHITE HOUSE RECEPTION.

Mrs. McKinley Able to Be In Line With the President—Miles Given Precedence Over Dewey.

WASHINGTON, Jan. 2.—At the White House reception, on New Year's day, about 3,354 guests passed down the line. Mrs. McKinley was present, despite her feeble health. She remained in the blue parlor only through the strictly official section of the program, retiring then, as had been previously arranged. With the flush of excitement on her usually pale face she looked bright and happy as she led the cabinet procession down the corridor with the president to the blue room.

The official procession moved down the stairs and through to the blue parlor, where the receiving party was to await. Mrs. McKinley bowed

and smiled to the little crowd of favored spectators who filled the end of the corridor to witness this opening act of the day's ceremonies. As she turned into the blue room she kissed the lips of the children who waved their hands to her from a point of vantage near the door.

The troublesome question of precedence between the army and navy was settled in favor of the former, General Miles leading the military contingent, with Adjutant General Corbin at his left side. After the army had passed in review Admiral Dewey, with the venerable Admiral Melville on his arm, led the line. Mrs. Dewey was with the receiving party and was escorted in on the arm of Secretary Long.

The diplomatic corps, which headed the list of guests, was always the show feature of the reception. Lord Paunceforte, the British ambassador and dean of the corps, led the way. The display of uniforms was brilliant, Turkish fez, gilded orders of the continental powers, the fur-trimmed tames and high, polished boots of the Russians, the queer, sage green, gold encrusted uniforms of the Japanese and the ermine-trimmed silken robes of the Koreans and Chinese all combined to form a picture of unusual brilliancy.

Following these the American officials, judges of the supreme court, senators and representatives, department chief and the like, made a longer if less striking procession. The reception to the general public concluded the function.

Rockefeller Doubles Large Sums Given to the University of Chicago.

CHICAGO, Jan. 2.—The University of Chicago received a gift of \$3,370,000. President Harper was to make the announcement today at the quarterly convocation of the University in Studenbaker hall. The president hoped to announce that the University would be \$1,000,000 richer, but he had not been able to raise the \$315,000 which, duplicated by John D. Rockefeller, would make up that amount.

However, Mr. Rockefeller wired that he will extend the limit three months, and in that time Dr. Harper thinks he is reasonably sure of getting the rest of the money, as he has several large donations in prospect.

WON BY KID MCCOY.

The Fight With Maher Resulted In the Irish Pugilist Being Knocked Out In Fifth Round.

NEW YORK, Jan. 2.—"Kid" McCoy defeated Peter Maher before the Coney Island Athletic club. The fight was scheduled to last 25 rounds, and the purse was to have been \$20,000, but the attendance was not as large as had been expected, and before the fight was begun the principals agreed that the winner should receive the gross gate receipts.

In the first round McCoy floored the Irishman with a left hook on the jaw. At one point in this round Maher forced McCoy to the ropes, landing a hard right but the Kid got away and sent in a hard left to the stomach before the round ended.

In the second round McCoy knocked Maher to his hands and knees, where the Irishman remained about four seconds. When he got up he seemed to lose his head and rushed McCoy and they exchanged blows.

In the third round at one point McCoy fainted and Maher came forward, but was sent back with two lefts on the

"KID" MCCOY.

jaw. He also got in other blows during the round and got away once when forced to the ropes.

In the fourth round, at one point, Maher forced McCoy into a neutral corner, planting a terrible left on the face, which jarred McCoy's head. McCoy sidestepped in an unusual direction and Peter tried another left, which fell short. In a mixup which followed honors were about even, but McCoy was cautioned by the referee for holding. Maher outpointed the Kid by 50 per cent in this round, sending rights and lefts to the head, while the Kid retaliated with lefts on the wind. Toward the close of the round Maher was cautioned for holding, and coming from a breakaway he sent a left hook to McCoy's face.

In the fifth round McCoy tapped Maher with a left lightly in the face, all the time shifting to the left side, then both landed lefts to the head. Peter sent a hard left to the head which the Kid countered. Then he sent to the throat and tried to cross with his right, but the Kid ducked and then McCoy landed left and right on the jaw. Peter wavered and McCoy sent another right, which fell a bit short, and then dropping his left to the body, tried a right swing, and as Peter side stepped the Kid met him with a full swinging left, which landed on the point of the jaw, and the Irishman went down, resting on his right elbow, and was counted out in this position.

For some days Maher had been the favorite, as good as 100 to 60 being bet on his chances. One hundred to 70 on Maher was the ruling price when the club house opened, and in the different sporting centers this price was maintained until within an hour of the beginning of the contest. When the men got into the ring the Kid was the favorite.

RAILWAY CARS CRASH

AT CRESSON, PA.

Runaway Section of Freight Knocked Accommodation Over Embankment. Persons Injured.

ALTOONA, Pa., Jan. 2.—A freight train running between Gallitzin and Cresson broke in two places. The last section, composed of about 25 cars, started backward down the grade to Cresson, gathering velocity at every wheel turn. It was running wild, there being no trainman on it. At Cresson the cars were piled up and fell over against the Glen Campbell accommodation, about ready to leave. The accommodation was made up of two coaches and 18 passengers were already aboard. The coaches were upset and rolled over an embankment 25 feet high. They were set on fire, as was also the debris of the freight cars. Railroaders quickly extinguished the flames. When the passengers were removed from the two coaches it was found that several of them were hurt.

The list is:
Miss Annie Streiner, Conemaugh, arm and leg broken.

Miss Sue Gallagher, Allegheny City, hurt about side.

Miss Minnie Ivory, St. Augustine, legs injured.

Mitchell Myers, Lilly, shoulder lacerated.

Mrs. P. E. Bowers, Windber, face and head burned.

Bertha Butterbaugh, Pitcairn, lacerated and arm hurt.

The others were more or less injured. Railroad company physicians treated the injured at Cresson station. They were afterwards sent home.

MUST BEAT THE TRUSTS.

Promoter of Chicago Conference Talks of Proposed Extensive Organization.

CHICAGO, Jan. 2.—Members of the executive committee of the National Anti-Trust conference to be held in Central Music Hall, February 12, held a short conference at the Sherman house. M. L. Lockwood, of Pennsylvania, chairman of the committee, afterward issued a statement, in which he said in part:

"Every day the anti-trust sentiment throughout the country is becoming intensified and everywhere the cry is going up, 'What can be done to save the country from the oppression of the trusts?' The mission of the conference is to answer this cry.

"The plan is to treat the causes rather than the effect, to strike at special privileges hardest and first. In government ownership only can railway favoritism be prevented. Government's control under corporate ownership has proven a failure. In order to destroy the trusts we must take from them the special advantages which have created them, and they will wither of their own weight as they meet the energetic competitive capacity of the American people.

"It is the plan to organize all who are opposed to trusts, with the view of uniting the friends of freedom in every state, county and school district in that concentrated action which alone can prove effective."

Church Destroyed; Two Injured.

Regret for Lawton's Death.

NEW YORK, Jan. 2.—The city council adopted a resolution expressing regret for the death of General Lawton, who was killed in the Philippines, and expressing sympathy for his family.

Some men have an idea that it is beneath a man's dignity to trouble himself much about his personal appearance. If anything is said upon the subject they snort with disdain, and say they leave vanity to the women.

A man never made a greater mistake. A man should not only be at all times neatly dressed, but also clean and wholesome of body. The man who is so is the man that succeeds. The man who does not care a copper about his dress, whose face is rendered unsightly by pimples, blotches and eruptions, whose complexion is sallow, whose eyes are heavy, whose shoulders are bent and whose carriage is slouchy, does not succeed, either in business or in social life. A man like that should be sentenced to live for thirty days in a room where all the walls were mirrors. He would then get sick of his own unwholesomeness, just as other people do. Such a man should have an honest portrait that did not flatter him always before his eyes. It only costs a trifle for a man to dress well, and it costs still less for him to keep clean, wholesome and healthy in a physical way. When a man's stomach is right and his digestion is right, his blood will be pure and rich and he will be wholesome and healthy physically. Dr. Pierce's Golden Medical Discovery makes a man right in every way by making his stomach, liver and digestion right. It gives him a hearty appetite and facilitates the assimilation of the life-giving elements of the food. It drives out all impurities from the blood. It is the great blood-maker and flesh-builder. It does not build flabby flesh or make corpulent people more corpulent. Honest druggists don't advise substitutes.

"I was tired all the time," writes J. Edward Davis, Esq. (care of Geo. F. Lasher, 147 No. 10th St., Philadelphia, Pa.). "In the morning I felt as if I had never slept and was too languid to eat. I was troubled with pimples, boils, dizzy head, backache and hollow cheeks. At one time I had twenty-eight boils on my back. I was very despondent and thought nothing would cure me. Then I commenced to take Dr. Pierce's Golden Medical Discovery. This medicine, together with Dr. Pierce's Pellets, cured me. Folks now say: 'Hello, Ed! What's become of your pimples?'"

Colonel Atkinson's Wit.

One of the judges of the Wayne circuit court tells of an incident in the bar practice of the late Colonel John Atkinson that illustrates his quickness to hurl a Partisan shaft and the biting sarcasm of his irony.

He was opposed in the case on trial by all the power and resources of James H. Pound, and they were fighting like giants for every point of advantage. Pound had won a majority of the jousts, the colonel was nettled, and he was lying low for a chance to deliver a swinging blow.

"It came," says the judge, "when I decided a point against Pound. It had been fiercely argued by both attorneys, and in deciding it as I did I stated my reasons at length, giving authorities. I saw Pound shake his head at one of my conclusions, his lips moved, and I supposed he had made some comment, so when I concluded my decision I asked:

"What did you say, Mr. Pound?" "Quick as a shot and in his most cutting tones of intense sarcasm the colonel replied:

"Mr. Pound did not speak, your honor. He merely shook his head. There is nothing in it."—Detroit Tribune.

ANOTHER NEW SCHEME

To Place Street Commissioner on a Good Salary.

DO AWAY WITH INSPECTOR

And Let the Commissioner Have Entire Control of the Streets—Some Needed Changes Pointed Out by a Party Who Has Given the Matter Some Thought.

The condition of some of the city sidewalks is always a subject for discussion and a prominent resident in speaking of the matter yesterday said:

"I think if council would pass an ordinance before the spring election, placing the street commissioner on a salary of at least \$100 a month, and give him entire control of the streets, the sidewalks would be kept in a great deal better condition than they now are. It was never intended that the street commissioner should superintend every shovelfull of dirt that is taken off the city streets and the work he now does could go to a subordinate officer. He now draws a salary of 50 per month and the inspector gets \$60, making a total of \$110. If the ordinance was passed there would be no necessity for an inspector and the city would save \$120 per year.

"I think I can safely say there are at least 50 places within 100 yards of the Diamond that if an accident were to occur the city would be liable for damages and there would be no escape. If the street commissioner was given the proper authority and the right wages such a state of affairs as now exist could be easily remedied.

"Another thing that is badly needed to place the city on the safe side is new gratings at the crossings instead of the frail ones that are now in use. The court in a recent decision in a damage case against this city called attention to the gratings and said they were too frail, were not close enough together and if an accident should occur on account of them the city would certainly be liable. He spoke of a case on Second street which came under his personal knowledge in which a wheelman received a hard fall because his front wheel went between the gratings. This, he said, was only one of the many things for which the city could be held.

"There is another matter which I wish to call your attention and that is the fact that President Peach recently submitted a list of sidewalks that he considered dangerous but they have not yet been repaired. Suppose some person should get hurt by reason of these defective sidewalks and sue for damages what defense would the city have? I sincerely hope that council will take some step in this matter before long."

BUILDING BURNED.

WITH IT 155 CHICKENS PERISHED.

Upset Coffee Pot, Scalded Her Foot--Revival Meetings--Personals--News of Chester.

Yesterday there were 155 roast chickens in East End ready to be given away to any who made a request.

Sunday morning Ira Chamberlain, who resides in Dixonville, thought of the cold weather and then of his chickens. He went out to the building where they were kept and built a fire in an old stove. The chickens cackled at this and the building was becoming very warm. Alas, it was in flames, and every chicken in the building was burned to death. Chamberlain went to the East End fire station and reported the matter, but that part of the hill where he lives is outside the city limits. He places his loss at \$75.

MOVING SHOVELS.

EXTENSION WILL BE FINISHED SOON.

Shortage of Coal--School Started--Among the Sick--News of Grant District.

At last Contractor McNally is preparing to ship his machinery to a point near Unions town. Yesterday he commenced to tear down the blacksmith shop near Newell's ferry and load the material on cars, and late in the afternoon he commenced to take one of the steam shovels apart, preparatory to loading it on the cars. The second shovel, which has been working at the narrows, will be loaded for shipment by Thursday. The shovel that has been working on the Gardner farm will be rented to the contractor who received the contract for constructing the additional mile of road to the Southside Land company's addition. As stated in this paper a few weeks ago, the extension will be finished by the middle of the month.

WINTER CAMPMEETING.

NOVEL SERIES OF MEETINGS AT M. P. CHURCH

Sunday, and to be Continued Throughout the Week. A Great Success.

The winter encampment at the Methodist Protestant church is well under way and the interest, attendance and prospect are already beyond the expectations of its supporters. This is a new thing in church activities in this city and is proving itself attractive and pleasing indeed. Stretched around three sides of the lecture room are yard-wide muslin stripes with appropriate scripture passages which make an inspiring effect. There is a chorus of 50 voices, led by Mrs. Risinger, chosen from the best singers, which is certainly one of the strongest features of the camp. Enlarged congregations were in attendance throughout the day Sunday and the all-night service Sunday night was indeed a pentecostal scene. The meeting consisted of responsive scripture readings, testimonies, prayer, gospel singing, earnest consecrations and personal examination. Last night at the old people's service cabs were run to convey the infirm to and from the church. The cold weather has no effect whatever upon the meetings.

LOST HIS GRIP.

Professor Laughlin Spent a Whole Night Searching For It.

The night the Presbyterian church choir returned from Pittsburg Professor Laughlin missed his grip. He telephoned to Wellsville and had the train searched, and waited until 4 o'clock in the morning to receive an answer. The grip was not found, and the next morning the professor was preparing to telephone to Pittsburg and have the Union depot searched, when he discovered that John Stoddard had taken his grip as a joke.

UNCLE SAM is to build a mammoth refrigerator at Manila. Expects to freeze Aggie out, we suppose.

THE Boers perhaps thought amateur plum pudding would be as deadly as shells. It is usually pretty fatal.

MAKE NO MISTAKES.

When William McKinley was re-elected governor of Ohio in 1893 the opinion was common that "if he makes no mistakes between now and 1896 he's sure to be our next president." Well, he made no mistakes and he became president. And he has made none since he became president. In fact, his record as a conservative and capable man has given a majority of his countrymen the most implicit confidence in him. This belief is going to re-elect him by a record-breaking majority next fall.

NORMAL SCHOOLS.

Superintendent Rayman Interested In the Bill Before the Legislature.

Superintendent R. E. Rayman is much interested in the movement to have the legislature enact a law authorizing the construction of five state normal schools, one to be in Columbus in connection with the State university and the other four to be located in each of the four corners of the state in cities offering the best inducements. Professor Rayman says while he does not think the normal schools would prove a cure-all, still almost every other state has them and they have proved very beneficial. An effort is also being made to amend the truancy law. At present it is difficult to interpret and no one knows exactly what it means.

REJOICING AT LISBON.

SEWER PIPE PLANT DEAL HAS BEEN CLOSED UP.

Pittsburg and Eastern Capitalists Back of the Purchase.

LISBON, Jan. 2.—[Special]—The deal for the sewer pipe works, east of Lisbon, is closed. The deed, which is three feet long, was delivered by Sheriff Gill to R. W. Allison as trustee today. The consideration was \$105,000. It required \$105 in revenue stamps for the deed. Lisbon has raised the bonus required, a little less than \$10,000 and both the works will be started within six months.

R. W. Allison, is president of the Empire Fireproofing company. The purchase includes the fireclay plants and coal and clay mines formerly owned by the United States Fireclay company and the Ohio Sewer Pipe company. These works are located on the Pennsylvania and Erie railroads and the sidetracks and terminals are included in the purchase.

Associated with Mr. Allison in the purchase is Henry M. Keasbey, president of the Central Fireproofing company, of New York, and also president of the Raritan Hollow and Porous Brick company, of Keasbey, N. J.

Messrs. Allison and Keasbey recently purchased the terra cotta works at Osnaburg, near Canton, O., and it is their intention to consolidate these with other plants which they are negotiating for. For this purpose a company is being organized under the laws of New Jersey, which will have its headquarters in Pittsburg.

ANOTHER DIVIDEND

Of Ten Per Cent Will be Given Lisbon First National Creditors Soon.

LISBON, Jan. 1.—[Special]—It is just 14 months since the disappearance of M. J. Child and the closing of the First National bank. At that time depositors thought they would realize almost nothing on their deposits, but through the efforts of I. B. Cameron, receiver, all received a 40 per cent dividend several months ago, and enough money is again in the hands of the comptroller of currency at Washington, to declare an additional dividend of 10 per cent.

The affairs of the bank will not be closed up for some time yet, and it is expected that much more money will be realized for creditors.

THREE CARD MONTE.

CAREER OF THE MAN WHO INVENTED THE SMOOTH TRICK.

He Imposed on Many Men of High Standing in the Nation, Made a Barrel of Money With His Swindling Game and Died a Pauper.

Lew Houck was the inventor of the notorious three card monte trick and about the cleverest card sharp in the world. Houck was well known in Kansas City, where he operated on and off for 20 years, making the city a sort of way station on his trips east and west.

The last time Houck was here he had just returned from a European trip. He produced papers and letters to show that while he was in London he was feted and dined by some of the upper crust of English society. He had passed there as a wealthy and traveled American. He had letters, too, from Secretary Olney, Secretary Carlisle and other leaders of the American political world which recommended him in the highest terms not only to the American representatives abroad, but to any friends of the writers who might meet him. And these letters were genuine. Their authenticity could not be doubted. Houck had a way of getting entrance into the exclusive clubs of Washington, Philadelphia, New York and other cities, and in his role of "gentleman of leisure" he had so imposed on men of high standing in the nation that they thought him all he represented himself to be and gave him the letters of introduction that helped him to fleece the aristocracy of Europe.

Houck invented the three card monte game before he became of age. This is a trick with cards that has fleeced more people out of money than any other game ever practiced. The trick is played with three aces, two black ones and one red. It is always played with a confederate to help, or "stall," for the game. The operator takes the three cards between his fingers, showing them to the victim, and then shuffles them about and drops them face down upon the table, offering to bet any amount of money that no one can pick out the red ace.

At this point the operator turns his head a moment to spit or to speak to some one in the crowd behind him, and in that moment the confederate picks up the red ace card, shows it to the victim, "crimps" the corner of the card and slyly lays it down again, apparently all unseen by the operator. The operator again shuffles the three cards and throws them upon the table, face down. There lies the card with its crimped corner. The victim supposes, of course, that it is the red ace and bets and picks it up to find that it is a black one, and he has lost his money.

The operator, when he picked up and shuffled the cards carelessly the second time, with a deft movement of his fingers removed the crimp in the red ace card and put a similar crimp in a black ace card. That was all there was to the trick. Houck worked it for years in hotels, on billiard tables, at fairs and circuses and on railroad trains and steamboats. He taught the trick to Canada Bill, a noted gambler, and the two worked together over all the country. They paid thousands upon thousands of dollars to railroad men in the old days for the privilege of working the game on trains, and they made money.

Later, when nearly every state in the Union passed laws aimed directly against the working of the three card monte game, it became unprofitable and was given up by Houck. But about that time an ingenious English cockney invented the "three shell" game, which was even more productive than three card monte, and Houck took it up. The three shell game is a modern improvement on the ancient thimble-rigging game that was worked at English fairs for many years. The old way was for the operator to crook his knee over the head of a cane that stood upright on the ground and move a small seed around between three thimbles on top of his leg, offering to bet that no one could pick the thimble under which the seed was hidden.

The lesson taught by the lives and deaths of Houck and Canada Bill and all the rest of their kind is that it never pays to be dishonest or to live by one's wits. These men may get great sums of money by sharp practices in the course of a lifetime, but they all die poor, and most of them die in prison. Canada Bill, who worked with Houck

on trains out of Kansas City and made probably \$1,000,000 in his life, died a pauper in the almshouse in Lebanon, Pa., and is buried in a pauper's grave. Houck dropped dead on the street in Durango, Mexico, and his widow in Ohio had to solicit aid to get his body home to give it decent burial. —Kansas City Star.

CUBANS' NEW YEAR.

A Parade in Havana About Midnight. Cheered, Among Others, President McKinley.

HAVANA, Jan. 2.—The New Year was ushered in with a torchlight procession which, forming just before midnight and preceded by a band, left the lower Prado and made the circuit of the principal streets. About the only tune played was the Cuban national hymn. The strains of the popular hymn drew people to the windows and doorways, and the procession was greeted with wild enthusiasm. Small boys kept up a firecracker fusillade along the line of march.

All the prominent Cuban Generals were cheered, although there was no doubt that the vivas were chiefly for "Cuba libre." President McKinley and Governor General Wood came in for a liberal share of popular applause. The procession have returned to the Prado, and the band having once again played the Cuban National hymn, some Americans, who were present, called for the "Star Spangled Banner." The band immediately complied and the crowd cheered lustily.

FENIANS PLAN INVASION.

Storing Dynamite, Ammunition, Food, Etc., Along the Canadian Border in New England.

BURLINGTON, Vt., Jan. 2.—It is reported that the Fenians are engaged in storing large quantities of dynamite, lyddite ammunition and supplies in a few selected repositories in remote districts in Vermont and Maine near the Canadian boundary line. The information comes from persons who claim to have knowledge of the purchase of some of the supplies and others who learned of their transportation by railroad disguised as groceries.

Dynamite and other explosives have been secured in large quantities and stored underground on the Vermont border, while quantities of canned meats have been hidden in some large barns of sympathizing farmers on the Maine line near New Hampshire.

It is said that an efficient ambulance corps is being organized under the supervision of a few loyal Irish women and surgeons who were in the Red Cross work in Cuba.

A schedule is being arranged of farmers of the border states who can furnish wagons and horses and oxen for transportation purposes, as this is regarded as a most important detail. A careful study is being made of the small railroad branches in Northern New England and places are being located where the road could be captured by a very small force.

FUGITIVE AND ABSCONDER.

The County Treasurer at Lancaster, Pa., Missing and Found to Be Short Over \$65,000.

LANCASTER, Pa., Jan. 2.—The continued absence of County Treasurer E. H. Hershey and the ugly stories concerning his accounts which have been afloat for a week past prepared the public for the formal announcement that he is a defaulter and absconder to the amount of \$65,000. Speculation and poker are believed to have practically eaten up the entire amount of the delinquency.

There is on deposit in the banks of this city \$14,840, while the books call for \$120,840. There is due the state for tax on money at interest for 1899 the sum of \$84,000, of which three-fourths comes back to this county, hence the net sum owing the state is \$21,000. Hershey is believed to have gone to Canada.

The office was turned over to the new treasurer when the shortage was officially announced to be \$65,000. Two of the bondsmen are brothers of Hershey, and one composed with the treasurer the firm of Amos Hershey & Bro. of Gordonville, against which execution for \$39,000 was issued last week. These judgments were held by relatives and were confessed but a few days previous.

They will likely be contested and it was expected will be stood aside. The other bondsmen represented the different banks which held the county deposits, and it was expected the shortage will be made good without litigation.

HOW IT'S BACKED.

Undoubted Reliability Is Expressed in East Liverpool Indorsement.

What you want is home indorsement. The backing of people you know. East Liverpool proof for East Liverpool people.

That's what follows here.

Surely no better backing can be had than the following from

Mrs. Edmund Parton, of 233 Ravine street, says: "I had backache, head ache and other symptoms of the complaint for two years. When the last attack came on I went to the W. & W. pharmacy and got a box of Doan's kidney pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Parton & Jackson, was seized with a severe attack of kidney complaint. Some years ago he contracted a fever which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's kidney pills emphasizing the facts that he had been a sufferer with kidney disease, confined to his bed; his physician informed him that perhaps he would be able to get him up in two or three weeks that he used Doan's kidney pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's kidney pills."

Populists to Have a Candidate.

BIRMINGHAM, Ala., Jan. 2.—The Populists state executive committee will put a candidate of its own in the field for United States senator. Neither Senator Morgan nor Governor Johnston will, therefore, get the Populist support. A resolution was adopted by the committee calling upon ex-Congressman M. W. Howard to make the senate race.

Brighter For Pittsburg.

PITTSBURG, Jan. 2.—Superintendent and General Agent Robert Pitearn of the Pennsylvania railroad authorized the statement that while the allotment of \$13,000,000 for improvements had not been definitely decided upon, that the setting aside of the vast sum would make the prospect for a new Union station much brighter.

Water charged with carbonic acid gas, in other words, soda water, is now prescribed as a palliative for hunger, especially for the abnormal sense of hunger due to disease.

The strength of a man's virtue must not be measured by its extraordinary efforts, but by his ordinary life.

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours and union labor employed.

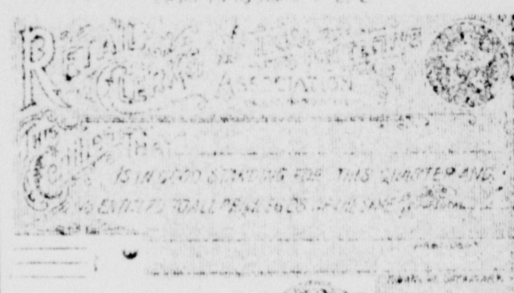

UNION PAPERS.

All Union papers of East Liverpool are now to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns.

PATRONIZE UNION CLERKS.

Members of the P. O. S. & S. P. and show this card to the printer when making your purchases.

COLOR IS CHANGED EACH QUARTER.

Look for the Union Label on all goods and services. It is the number of the Local Union.

UNION MADE BOOTS AND SHOES.

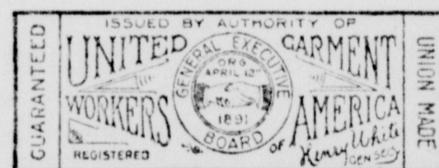

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailors' Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE CLOTHES.

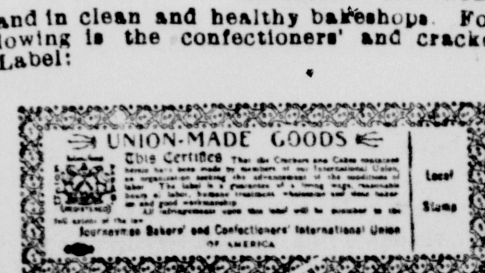

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold. The label will be placed on the upper front side of the tube that receives the seat post.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions, and in clean and healthy bakeries. Following is the confectioners' and cracker label:

WON BY KID MCCOY.

The Fight With Maher Resulted In the Irish Pugilist Being Knocked Out in Fifth Round.

NEW YORK, Jan. 2.—"Kid" McCoy defeated Peter Maher before the Coney Island Athletic club. The fight was scheduled to last 25 rounds, and the purse was to have been \$20,000, but the attendance was not as large as had been expected, and before the fight was begun the principals agreed that the winner should receive the gross gate receipts.

In the first round McCoy floored the Irishman with a left hook on the jaw. At one point in this round Maher forced McCoy to the ropes, landing a hard right but the Kid got away and sent in a hard left to the stomach before the round ended.

In the second round McCoy knocked Maher to his hands and knees, where the Irishman remained about four seconds. When he got up he seemed to lose his head and rushed McCoy and they exchanged blows.

In the third round at one point McCoy fainted and Maher came forward, but was sent back with two lefts on the

"KID" MCCOY.

jaw. He also got in other blows during the round and got away once when forced to the ropes.

In the fourth round, at one point, Maher forced McCoy into a neutral corner, planting a terrible left on the face, which jarred McCoy's head. McCoy sidestepped in an unusual direction and Peter tried another left, which fell short. In a mixup which followed honors were about even, but McCoy was cautioned by the referee for holding. Maher outpointed the Kid by 50 per cent in this round, sending rights and lefts to the head, while the Kid retaliated with lefts on the wind. Toward the close of the round Maher was cautioned for holding, and coming from a breakaway he sent a left hook to McCoy's face.

In the fifth round McCoy tapped Maher with a left lightly in the face, all the time shifting to the left side, then both landed lefts to the head. Peter sent a hard left to the head which the Kid countered. Then he sent to the throat and tried to cross with his right, but the Kid ducked and then McCoy landed left and right on the jaw. Peter wavered and McCoy sent another right, which fell a bit short, and then dropping his left to the body, tried a right swing, and as Peter side stepped the Kid met him with a full swinging left, which landed on the point of the jaw, and the Irishman went down, resting on his right elbow, and was counted out in this position.

For some days Maher had been the favorite, as good as 100 to 60 being bet on his chances. One hundred to 70 on Maher was the ruling price when the club house opened, and in the different sporting centers this price was maintained until within an hour of the beginning of the contest. When the men got into the ring the Kid was the favorite.

RAILWAY CARS CRASH

AT CRESEON, PA.

Runaway Section of Freight Knocked Accommodation Over Embankment. Persons Injured.

ALTOONA, Pa., Jan. 2.—A freight train running between Gallitzin and Crescon broke in two places. The last section, composed of about 25 cars, started backward down the grade to Crescon, gathering velocity at every wheel turn. It was running wild, there being no trainman on it. At Crescon the cars were piled up and fell over against the Glen Campbell accommodation, about ready to leave. The accommodation was made up of two coaches and 18 passengers were already aboard. The coaches were upset and rolled over an embankment 25 feet high. They were set on fire, as was also the debris of the freight cars. Railroaders quickly extinguished the flames. When the passengers were removed from the two coaches it was found that several of them were hurt.

The list is: Miss Annie Streiner, Conemaugh, arm and leg broken.

Miss Sue Gallagher, Allegheny City, hurt about side.

Miss Minnie Ivory, St. Augustine, legs injured.

Mitchell Myers, Lilly, shoulder lacerated.

Mrs. P. E. Bowers, Windber, face and head burned.

Bertha Butterbaugh, Pitcairn, lacerated and arm hurt.

The others were more or less injured. Railroad company physicians treated the injured at Crescon station. They were afterwards sent home.

MUST BEAT THE TRUSTS.

Promoter of Chicago Conference Talks of Proposed Extensive Organization.

CHICAGO, Jan. 2.—Members of the executive committee of the National Anti-Trust conference to be held in Central Music Hall, February 12, held a short conference at the Sherman house. M. L. Lockwood, of Pennsylvania, chairman of the committee, afterward issued a statement, in which he said in part:

"Every day the anti-trust sentiment throughout the country is becoming intensified and everywhere the cry is going up, 'What can be done to save the country from the oppression of the trusts?' The mission of the conference is to answer this cry.

"The plan is to treat the causes rather than the effect, to strike at special privileges hardest and first. In government ownership only can railway favoritism be prevented. Government's control under corporate ownership has proven a failure. In order to destroy the trusts we must take from them the special advantages which have created them, and they will wither of their own weight as they meet the energetic competitive capacity of the American people.

"It is the plan to organize all who are opposed to trusts, with the view of uniting the friends of freedom in every state, county and school district in that concentrated action which alone can prove effective."

Church Destroyed; Two Injured.

STROMSBURG, Neb., Jan. 2.—Eden Baptist church was totally destroyed by fire. The fire was caused by an explosion of acetylene gas, with which the church was lighted, but most had left when the explosion occurred. Mrs. J. L. Johnson and her daughter Pearl were seriously injured.

ST. LOUIS, Jan. 2.—For the first time in many years the Mississippi river was frozen over here.

Regret for Lawton's Death.

NEW YORK, Jan. 2.—The city council adopted a resolution expressing regret for the death of General Lawton, who was killed in the Philippines, and expressing sympathy for his family.

Some men have an idea that it is beneath a man's dignity to trouble himself much about his personal appearance. If anything is said upon the subject they snort with disdain, and say they leave vanity to the women.

A man never made a greater mistake. A man should not only be at all times neatly dressed, but also clean and wholesome of body. The man who is so is the man that succeeds. The man who does not care a copper about his dress, whose face is rendered unsightly by pimples, blotches and eruptions, whose complexion is sallow, whose eyes are heavy, whose shoulders are bent and whose carriage is slouchy, does not succeed, either in business or in social life. A man like that should be sentenced to live for thirty days in a room where all the walls were mirrors. He would then get sick of his own unwholesomeness, just as other people do. Such a man should have an honest portrait that did not flatter him always before his eyes. It only costs a trifle for a man to dress well, and it costs still less for him to keep clean, wholesome and healthy in a physical way. When a man's stomach is right and his digestion is right, his blood will be pure and rich and he will be wholesome and healthy physically. Dr. Pierce's Golden Medical Discovery makes a man right in every way by making his stomach, liver and digestion right. It gives him a hearty appetite and facilitates the assimilation of the life-giving elements of the food. It drives out all impurities from the blood. It is the great blood-maker and flesh-builder. It does not build flabby flesh or make corpulent people more corpulent. Honest druggists don't advise substitutes.

"I was tired all the time," writes J. Edward Davis, Esq. (care of Geo. F. Lasher), 147 No. 10th St., Philadelphia, Pa. "In the morning I felt as if I had never slept and was too languid to eat. I was troubled with pimples, boils, dizzy head, backache and hollow cheeks. At one time I had twenty-eight boils on my back. I was very despondent and thought nothing would cure me. Then I commenced to take Dr. Pierce's Golden Medical Discovery. This medicine, together with Dr. Pierce's Pellets, cured me. Folks now say 'Hello, Ed! What's become of your pimples?'"

Colonel Atkinson's Wit.

One of the judges of the Wayne circuit court tells of an incident in the bar practice of the late Colonel John Atkinson that illustrates his quickness to hurl a Partisan shaft and the biting sarcasm of his irony.

He was opposed in the case on trial by all the power and resources of James H. Pound, and they were fighting like giants for every point of advantage. Pound had won a majority of the jousts, the colonel was nettled, at I was lying low for a chance to deliver a swinging blow.

"It came," says the judge, "when I decided a point against Pound. It had been fiercely argued by both attorneys, and in deciding it as I did I stated my reasons at length, giving authorities. I saw Pound shake his head at one of my conclusions, his lips moved, and I supposed he had made some comment, so when I concluded my decision I asked:

"What did you say, Mr. Pound?"

"Quick as a shot and in his most cutting tones of intense sarcasm the colonel replied:

"Mr. Pound did not speak, your honor. He merely shook his head. There is nothing in it."—Detroit Tribune.

ANOTHER NEW SCHEME

To Place Street Commissioner on a Good Salary.

DO AWAY WITH INSPECTOR

And Let the Commissioner Have Entire Control of the Streets—Some Needed Changes Pointed Out by a Party Who Has Given the Matter Some Thought.

The condition of some of the city sidewalks is always a subject for discussion and a prominent resident in speaking of the matter yesterday said:

"I think if council would pass an ordinance before the spring election, placing the street commissioner on a salary of at least \$100 a month, and give him entire control of the streets, the sidewalks would be kept in a great deal better condition than they now are. It was never intended that the street commissioner should superintend every shovelfull of dirt that is taken off the city streets and the work he now does could go to a subordinate officer. He now draws a salary of 50 per month and the inspector gets \$60, making a total of \$110. If the ordinance was passed there would be no necessity for an inspector and the city would save \$120 per year.

"I think I can safely say there are at least 50 places within 100 yards of the Diamond that if an accident were to occur the city would be liable for damages; and there would be no escape. If the street commissioner was given the proper authority and the right wages such a state of affairs as now exist could be easily remedied.

"Another thing that is badly needed to place the city on the safe side is new gratings at the crossings instead of the frail ones that are now in use. The court in a recent decision in a damage case against this city called attention to the gratings and said they were too frail, were not close enough together and if an accident should occur on account of them the city would certainly be liable. He spoke of a case on Second street which came under his personal knowledge in which a wheelman received a hard fall because his front wheel went between the gratings. This, he said, was only one of the many things for which the city could be held.

"There is another matter which I wish to call your attention and that is the fact that President Peach recently submitted a list of sidewalks that he considered dangerous but they have not yet been repaired. Suppose some person should get hurt by reason of these defective sidewalks and sue for damages what defense would the city have? I sincerely hope that council will take some step in this matter before long."

SUBURBAN NEWS.

BUILDING BURNED.

WITH IT 155 CHICKENS PERISHED.

Upset Coffee Pot, Scalded Her Foot--Revival Meetings--Personal--News of Chester.

Yesterday there were 155 roast chickens in East End ready to be given away to any who made a request.

Sunday morning Ira Chamberlain, who resides in Dixonville, thought of the cold weather and then of his chickens. He went out to the building where they were kept and built a fire in an old stove. The chickens cackled at this and the building was becoming very warm. Alas, it was in flames, and every chicken in the building was burned to death. Chamberlain went to the East End fire station and reported the matter, but that part of the bill where he lives is outside the city limits. He places his loss at \$75.

WINTER CAMPMEETING.

NOVEL SERIES OF MEETINGS AT M. P. CHURCH

Sunday, and to be Continued Throughout the Week. A Great Success.

The winter encampment at the Methodist Protestant church is well under way and the interest, attendance and prospect are already beyond the expectations of its supporters. This is a new thing in church activities in this city and is proving itself attractive and pleasing indeed. Stretched around three sides of the lecture room are yard-wide muslin stripes with appropriate scripture passages which make an inspiring effect. There is a chorus of 50 voices, led by Mrs. Risinger, chosen from the best singers, which is certainly one of the strongest features of the camp. Enlarged congregations were in attendance throughout the day Sunday and the all-night service Sunday night was indeed a pentecostal scene. The meeting consisted of responsive scripture readings, testimonies, prayer, gospel singing, earnest consecrations and personal examination. Last night at the old people's service cabs were run to convey the infirm to and from the church. The cold weather has no effect whatever upon the meetings.

ANOTHER NEW SCHEME

To Place Street Commissioner on a Good Salary.

DO AWAY WITH INSPECTOR

And Let the Commissioner Have Entire Control of the Streets—Some Needed Changes Pointed Out by a Party Who Has Given the Matter Some Thought.

The condition of some of the city sidewalks is always a subject for discussion and a prominent resident in speaking of the matter yesterday said:

"I think if council would pass an ordinance before the spring election, placing the street commissioner on a salary of at least \$100 a month, and give him entire control of the streets, the sidewalks would be kept in a great deal better condition than they now are. It was never intended that the street commissioner should superintend every shovelfull of dirt that is taken off the city streets and the work he now does could go to a subordinate officer. He now draws a salary of 50 per month and the inspector gets \$60, making a total of \$110. If the ordinance was passed there would be no necessity for an inspector and the city would save \$120 per year.

"I think I can safely say there are at least 50 places within 100 yards of the Diamond that if an accident were to occur the city would be liable for damages and there would be no escape. If the street commissioner was given the proper authority and the right wages such a state of affairs as now exist could be easily remedied.

"Another thing that is badly needed to place the city on the safe side is new gratings at the crossings instead of the frail ones that are now in use. The court in a recent decision in a damage case against this city called attention to the gratings and said they were too frail, were not close enough together and if an accident should occur on account of them the city would certainly be liable. He spoke of a case on Second street which came under his personal knowledge in which a wheelman received a hard fall because his front wheel went between the gratings. This, he said, was only one of the many things for which the city could be held.

"There is another matter which I wish to call your attention and that is the fact that President Peach recently submitted a list of sidewalks that he considered dangerous but they have not yet been repaired. Suppose some person should get hurt by reason of these defective sidewalks and sue for damages what defense would the city have? I sincerely hope that council will take some step in this matter before long."

NORMAL SCHOOLS.

Superintendent Rayman Interested in the Bill Before the Legislature.

Superintendent R. E. Rayman is much interested in the movement to have the legislature enact a law authorizing the construction of five state normal schools, one to be in Columbus in connection with the State university and the other four to be located in each of the four corners of the state in cities offering the best inducements. Professor Rayman says while he does not think the normal schools would prove a cure-all, still almost every other state has them and they have proved very beneficial. An effort is also being made to amend the truancy law. At present it is difficult to interpret and no one knows exactly what it means.

REJOICING AT LISBON.

SEWER PIPE PLANT DEAL HAS BEEN CLOSED UP.

Pittsburg and Eastern Capitalists Back of the Purchase.

LISBON, Jan. 2.—[Special]—The deal for the sewer pipe works, east of Lisbon, is closed. The deed, which is three feet long, was delivered by Sheriff Gill to R. W. Allison as trustee today. The consideration was \$105,000. It required \$105 in revenue stamps for the deed. Lisbon has raised the bonus required, a little less than \$10,000 and both the works will be started within six months.

R. W. Allison, is president of the Empire Fireproofing company. The purchase includes the fireclay plants and coal and clay mines formerly owned by the United States Fireclay company and the Ohio Sewer Pipe company. These works are located on the Pennsylvania and Erie railroads and the sidetracks and terminals are included in the purchase.

Associated with Mr. Allison in the purchase is Henry M. Keasbey, president of the Central Fireproofing company, of New York, and also president of the Raritan Hollow and Porous Brick company, of Keasbey, N. J.

Messrs. Allison and Keasbey recently purchased the terra cotta works at Osnaburg, near Canton, O., and it is their intention to consolidate these with other plants which they are negotiating for. For this purpose a company is being organized under the laws of New Jersey, which will have its headquarters in Pittsburg.

ANOTHER DIVIDEND

Of Ten Per Cent Will be Given Lisbon First National Creditors Soon.

LISBON, Jan. 1.—[Special]—It is just 14 months since the disappearance of M. J. Child and the closing of the First National bank. At that time depositors thought they would realize almost nothing on their deposits, but through the efforts of I. B. Cameron, receiver, all received a 40 per cent dividend several months ago, and enough money is again in the hands of the comptroller of currency at Washington, to declare an additional dividend of 10 per cent.

The affairs of the bank will not be closed up for some time yet, and it is expected that much more money will be realized for creditors.

THREE CARD MONTE.

CAREER OF THE MAN WHO INVENTED
THE SMOOTH TRICK.

He Imposed on Many Men of High
Standing in the Nation, Made a
Barrel of Money With His Swindling
Game and Died a Pauper.

Lew Houck was the inventor of the notorious three card monte trick and about the cleverest card sharp in the world. Houck was well known in Kansas City, where he operated on and off for 20 years, making the city a sort of way station on his trips east and west.

The last time Houck was here he had just returned from a European trip. He produced papers and letters to show that while he was in London he was feted and dined by some of the upper crust of English society. He had passed there as a wealthy and traveled American. He had letters, too, from Secretary Olney, Secretary Carlisle and other leaders of the American political world which recommended him in the highest terms not only to the American representatives abroad, but to any friends of the writers who might meet him. And these letters were genuine. Their authenticity could not be doubted. Houck had a way of getting entrance into the exclusive clubs of Washington, Philadelphia, New York and other cities, and in his role of "gentleman of leisure" he had so imposed on men of high standing in the nation that they thought him all he represented himself to be and gave him the letters of introduction that helped him to fleece the aristocracy of Europe.

Houck invented the three card monte game before he became of age. This is a trick with cards that has fleeced more people out of money than any other game ever practiced. The trick is played with three aces, two black ones and one red. It is always played with a confederate to help, or "stall," for the game. The operator takes the three cards between his fingers, showing them to the victim, and then shuffles them about and drops them face down upon the table, offering to bet any amount of money that no one can pick out the red ace.

At this point the operator turns his head a moment to spit or to speak to some one in the crowd behind him, and in that moment the confederate picks up the red ace card, shows it to the victim, "crimps" the corner of the card and slyly lays it down again, apparently all unseen by the operator. The operator again shuffles the three cards and throws them upon the table, face down. There lies the card with its crimped corner. The victim supposes, of course, that it is the red ace and bets and picks it up to find that it is a black one, and he has lost his money.

The operator, when he picked up and shuffled the cards carelessly the second time, with a deft movement of his fingers removed the crimp in the red ace card and put a similar crimp in a black ace card. That was all there was to the trick. Houck worked it for years in hotels, on billiard tables, at fairs and circuses and on railroad trains and steamboats. He taught the trick to Canada Bill, a noted gambler, and the two worked together over all the country. They paid thousands upon thousands of dollars to railroad men in the old days for the privilege of working the game on trains, and they made money.

Later, when nearly every state in the Union passed laws aimed directly against the working of the three card monte game, it became unprofitable and was given up by Houck. But about that time an ingenious English cockney invented the "three shell" game, which was even more productive than three card monte, and Houck took it up. The three shell game is a modern improvement on the ancient thimble-rigging game that was worked at English fairs for many years. The old way was for the operator to crouch his knee over the head of a cane that stood upright on the ground and move a small seed around between three thimbles on top of his leg, offering to bet that no one could pick the thimble under which the seed was hidden.

The lesson taught by the lives and deaths of Houck and Canada Bill and all the rest of their kind is that it never pays to be dishonest or to live by one's wits. These men may get great sums of money by sharp practices in the course of a lifetime, but they all die poor, and most of them die in prison. Canada Bill, who worked with Houck

on trains out of Kansas City and made probably \$1,000,000 in his life, died a pauper in the almshouse in Lebanon, Pa., and is buried in a pauper's grave. Houck dropped dead on the street in Durango, Mexico, and his widow in Ohio had to solicit aid to get his body home to give it decent burial.—Kansas City Star.

CUBANS' NEW YEAR.

A Parade in Havana About Midnight.
Cheered, Among Others, President McKinley.

HAVANA, Jan. 2.—The New Year was ushered in with a torchlight procession which, forming just before midnight and preceded by a band, left the lower Prado and made the circuit of the principal streets. About the only tune played was the Cuban national hymn. The strains of the popular hymn drew people to the windows and doorways, and the procession was greeted with wild enthusiasm. Small boys kept up a firecracker fusillade along the line of march.

All the prominent Cuban Generals were cheered, although there was no doubt that the vivas were chiefly for "Cuba libre." President McKinley and Governor General Wood came in for a liberal share of popular applause. The procession have returned to the Prado, and the band having once again played the Cuban National hymn, some Americans, who were present, called for the "Star Spangled Banner." The band immediately complied and the crowd cheered lustily.

FENIANS PLAN INVASION.

Storing Dynamite, Ammunition, Food,
Etc., Along the Canadian Border
in New England.

BURLINGTON, Vt., Jan. 2.—It is reported that the Fenians are engaged in storing large quantities of dynamite, lyddite ammunition and supplies in a few selected repositories in remote districts in Vermont and Maine near the Canadian boundary line. The information comes from persons who claim to have knowledge of the purchase of some of the supplies and others who learned of their transportation by railroad disguised as groceries.

Dynamite and other explosives have been secured in large quantities and stored underground on the Vermont border, while quantities of canned meats have been hidden in some large barns of sympathizing farmers on the Maine line near New Hampshire.

It is said that an efficient ambulance corps is being organized under the supervision of a few loyal Irish women and surgeons who were in the Red Cross work in Cuba.

A schedule is being arranged of farmers of the border states who can furnish wagons and horses and oxen for transportation purposes, as this is regarded as a most important detail. A careful study is being made of the small railroad branches in Northern New England and places are being located where the road could be captured by a very small force.

FUGITIVE AND ABSCONDER.

The County Treasurer at Lancaster, Pa.,
Missing and Found to Be Short
Over \$65,000.

LANCASTER, Pa., Jan. 2.—The continued absence of County Treasurer E. H. Hershey and the ugly stories concerning his accounts which have been afloat for a week past prepared the public for the formal announcement that he is a defaulter and absconder to the amount of \$65,000. Speculation and poker are believed to have practically eaten up the entire amount of the defalcation.

There is on deposit in the banks of this city \$11,840, while the books call for \$120,840. There is due the state for tax on money at interest for 1899 the sum of \$81,000, of which three-fourths comes back to this county, hence the net sum owing the state is \$21,000. Hershey is believed to have gone to Canada.

The office was turned over to the new treasurer when the shortage was officially announced to be \$65,012.41. Two of the bondsmen are brothers of Hershey, and one composed with the treasurer the firm of Amos Hershey & Bro. of Gordonville, against which execution for \$39,000 was issued last week. These judgments were held by relatives and were confessed but a few days previous.

They will likely be contested and it was expected will be stood aside. The other bondsmen represented the different banks which held the county deposits, and it was expected the shortage will be made good without litigation.

Mrs. Edmund Parton, of 233 Ravine street, says: "I had backache, head ache and other symptoms of the complaint for two years. When the last attack came on I went to the W & W. pharmacy and got a box of Doan's kidney pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Parton & Jackson, was seized with a severe attack of kidney complaint. Some years ago he contracted a fever which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's kidney pills emphasizing the facts that he had been a sufferer with kidney disease, confined to his bed; his physician informed him that perhaps he would be able to get him up in two or three weeks that he used Doan's kidney pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's kidney pills."

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours and union labor employed.

All Union papers of East Liverpool are sold to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns.

WON BY KID MCCOY.

The Fight With Maher Resulted In the Irish Pugilist Being Knocked Out In Fifth Round.

NEW YORK, Jan. 2.—"Kid" McCoy defeated Peter Maher before the Coney Island Athletic club. The fight was scheduled to last 25 rounds, and the purse was to have been \$20,000, but the attendance was not as large as had been expected, and before the fight was begun the principals agreed that the winner should receive the gross gate receipts.

In the first round McCoy floored the Irishman with a left hook on the jaw. At one point in this round Maher forced McCoy to the ropes, landing a hard right but the Kid got away and sent in a hard left to the stomach before the round ended.

In the second round McCoy knocked Maher to his hands and knees, where the Irishman remained about four seconds. When he got up he seemed to lose his head and rushed McCoy and they exchanged blows.

In the third round at one point McCoy fainted and Maher came forward, but was sent back with two lefts on the

"KID" MCCOY.

jaw. He also got in other blows during the round and got away once when forced to the ropes.

In the fourth round, at one point, Maher forced McCoy into a neutral corner, planting a terrible left on the face, which jarred McCoy's head. McCoy sidestepped in an unusual direction and Peter tried another left, which fell short. In a mixup which followed Maher was about even, but McCoy was cautioned by the referee for holding. Maher outpointed the Kid by 50 per cent in this round, sending rights and lefts to the head, while the Kid retaliated with lefts on the wind. Toward the close of the round Maher was cautioned for holding, and coming from a breakaway he sent a left hook to McCoy's face.

In the fifth round McCoy tapped Maher with a left lightly in the face, all the time shifting to the left side, then both landed lefts to the head. Peter sent a hard left to the head which the Kid countered. Then he sent to the throat and tried to cross with his right, but the Kid ducked and then McCoy landed left and right on the jaw. Peter wavered and McCoy sent another right, which fell a bit short, and then dropping his left to the body, tried a right swing, and as Peter side stepped the Kid met him with a full swinging left, which landed on the point of the jaw, and the Irishman went down, resting on his right elbow, and was counted out in this position.

For some days Maher had been the favorite, as good as 100 to 60 being bet on his chances. One hundred to 70 on Maher was the ruling price when the club house opened, and in the different sporting centers this price was maintained until within an hour of the beginning of the contest. When the men got into the ring the Kid was the favorite.

RAILWAY CARS CRASH

AT CRESSON, PA.

Runaway Section of Freight Knocked Accommodation Over Embankment. Persons Injured.

ALTOONA, Pa., Jan. 3.—A freight train running between Gallitzin and Cresson broke in two places. The last section, composed of about 25 cars, started backward down the grade to Cresson, gathering velocity at every wheel turn. It was running wild, there being no trainman on it. At Cresson the cars were piled up and fell over against the Glen Campbell accommodation, about ready to leave. The accommodation was made up of two coaches and 18 passengers were already aboard. The coaches were upset and rolled over an embankment 25 feet high. They were set on fire, as was also the debris of the freight cars. Railroaders quickly extinguished the flames. When the passengers were removed from the two coaches it was found that several of them were hurt.

The list is:
Miss Annie Streiner, Conemaugh, arm and leg broken.

Miss Sue Gallagher, Allegheny City, hurt about side.

Miss Minnie Ivory, St. Augustine, legs injured.

Mitchell Myers, Lilly, shoulder lacerated.

Mrs. P. E. Bowers, Windber, face and head burned.

Bertha Butterbaugh, Pitcairn, lacerated and arm hurt.

The others were more or less injured. Railroad company physicians treated the injured at Cresson station. They were afterwards sent home.

MUST BEAT THE TRUSTS.

Promoter of Chicago Conference Talks of Proposed Extensive Organization.

CHICAGO, Jan. 2.—Members of the executive committee of the National Anti-Trust conference to be held in Central Music Hall, February 12, held a short conference at the Sherman house. M. L. Lockwood, of Pennsylvania, chairman of the committee, afterward issued a statement, in which he said in part:

"Every day the anti-trust sentiment throughout the country is becoming intensified and everywhere the cry is going up, 'What can be done to save the country from the oppression of the trusts?' The mission of the conference is to answer this cry.

"The plan is to treat the causes rather than the effect, to strike at special privileges hardest and first. In government ownership only can railway favoritism be prevented. Government's control under corporate ownership has proven a failure. In order to destroy the trusts we must take from them the special advantages which have created them, and they will wither of their own weight as they meet the energetic competitive capacity of the American people.

"It is the plan to organize all who are opposed to trusts, with the view of uniting the friends of freedom in every state, county and school district in that concentrated action which alone can prove effective."

George V. Metzel Dead.

Regret for Lawton's Death.

NEW YORK, Jan. 2.—The city council adopted a resolution expressing regret for the death of General Lawton, who was killed in the Philippines, and expressing sympathy for his family.

Some men have an idea that it is beneath a man's dignity to trouble himself much about his personal appearance. If anything is said upon the subject they snort with disdain, and say they leave vanity to the women.

A man never made a greater mistake. A man should not only be at all times neatly dressed, but also clean and wholesome of body. The man who is so is the man that succeeds. The man who does not care a copper about his dress, whose face is rendered unsightly by pimples, blotches and eruptions, whose complexion is sallow, whose eyes are heavy, whose shoulders are bent and whose carriage is slouchy, does not succeed, either in business or in social life. A man like that should be sentenced to live for thirty days in a room where all the walls were mirrors. He would then get sick of his own unwholesomeness, just as other people do. Such a man should have an honest portrait that did not flatter him always before his eyes. It only costs a trifle for a man to dress well, and it costs still less for him to keep clean, wholesome and healthy in a physical way. When a man's stomach is right and his digestion is right, his blood will be pure and rich and he will be wholesome and healthy physically. Dr. Pierce's Golden Medical Discovery makes a man right in every way by making his stomach, liver and digestion right. It gives him a hearty appetite and facilitates the assimilation of the life-giving elements of the food. It drives out all impurities from the blood. It is the great blood-maker and flesh-builder. It does not build flabby flesh or make corpulent people more corpulent. Honest druggists don't advise substitutes.

"I was tired all the time," writes J. Edward Davis, Esq. (care of Geo. F. Lasher), 147 No. 10th St., Philadelphia, Pa. "In the morning I felt as if I had never slept and was too languid to eat. I was troubled with pimples, boils, dizzy head, backache and hollow cheeks. At one time I had twenty-eight boils on my back. I was very despondent and thought nothing would cure me. Then I commenced to take Dr. Pierce's Golden Medical Discovery. This medicine, together with Dr. Pierce's Pellets, cured me. Folks now say: Hello, Ed! What's become of your pimples?"

Colonel Atkinson's Wit.

One of the judges of the Wayne circuit court tells of an incident in the bar practice of the late Colonel John Atkinson that illustrates his quickness to hurl a Parthian shaft and the biting sarcasm of his irony.

He was opposed in the case on trial by all the power and resources of James H. Pound, and they were fighting like giants for every point of advantage. Pound had won a majority of the jousts, the colonel was nettled, and I was lying low for a chance to deliver a swinging blow.

"It came," says the judge, "when I decided a point against Pound. It had been fiercely argued by both attorneys, and in deciding it as I did I stated my reasons at length, giving authorities. I saw Pound shake his head at one of my conclusions, his lips moved, and I supposed he had made some comment, so when I concluded my decision I asked:

"What did you say, Mr. Pound?" "Quick as a shot and in his most cutting tones of intense sarcasm the colonel replied:

"Mr. Pound did not speak, your honor. He merely shook his head. There is nothing in it."—Detroit Tribune.
